JoCo Marsh. c. 1990
Laughing Gull nests at JoCo Marsh. c. 1990
West Pond, Fountain Avenue Landfill and Empire State Building. c. 1997
Don Riepe, American Littoral Society Northeast Chapter Director

Don Riepe founded the Northeast Chapter of the American Littoral Society in 1985 and has been the Society’s Jamaica Bay Guardian since 2004. With twenty-five years as a naturalist and manager of the National Park System’s Jamaica Bay Wildlife Refuge, Don is a staunch defender of wildlife and habitat in the urban littoral zone. Frequently called upon to testify at hearings on behalf of Jamaica Bay, Don recently made a significant contribution to the passage of legislation to protect New York City’s remaining wetlands. In 2010, Don started the Friends of Jamaica Bay Refuge to educate community members about the importance and values of this tidal estuary in New York City. Don’s writings and photographs have been published in Scientific American, National Wildlife, Audubon, Defenders, Underwater Naturalist, Parade, and The New York Times. He is a member of the Board of the NYC Audubon Society and the Rockaway Waterfront Alliance, and is a founding member as well as Secretary/Treasurer of the NYC Butterfly Club. He holds a Master of Science in Natural Resource Management from the University of New Hampshire.
